

# Flower & Edibles Show Workshop 101

## Poster and Photos

Saturday March 29, 2025

Carleton Place and District Horticultural Flower Show Committee hosted a introductory workshop for those interested in learning about exhibiting in flower and edibles shows. Members' cost was a small contribution to the cost of materials. The higher fee for the public included a membership. The workshop sold out quickly. Here are a few photos:

By all accounts it was a great success with attendees braving the snow and ice storm to have a wonderful day learning the ins and outs of preparing entries for a flower show. The second workshop 'Floral Design' is coming up next month.

### Brochure for both workshops:

# FLORAL ✱ *DESIGN* WORKSHOPS

CARLETON PLACE AND

## Observations and photos by Irene Tobis:

*"The workshop was a huge success. Everyone I talked with said they really enjoyed it and learned a lot. Helen [Halpenny] did an excellent job."*

*"I don't know who created each of these first 3 mini designs. I only know the 4th one, with the baby's shoe, was Barbara Fowler's"*

Wow!

On behalf of the Board and membership we offer many thanks to the Flower Show Committee and to Helen Halpenny for all of your work, knowledge and talent that made this workshop possible. And to Irene Tobis for sharing her photos and observations.

Lots of budding talent out there ;)

Happy gardening, Rick
