

Fall Flower & Edibles Show
Carleton Place & District Horticultural Society
October 2025

The Fall flower show was held during the CPDHS October monthly meeting. It was a big success with a large number of members exhibiting. So many in fact, that a decision has been taken that 2026 flower shows will be stand-alone Saturday events. That will ensure that growing member interest in flower shows has the space to show off their talents, adequate time for judging, and be open for the public to enjoy.

We hope that you enjoy these photographs of many of the entries in our 2025 Fall Flower and Edibles Show provided in no particular order. Photo credit: Rob Drapeau
